

January 5th, 2006

Agenda

Discussion on the Draft

- Steve will send the draft to Darren and Darren will Williams stuff to it. And do a general clean up. Break the WSDL into a generic XSD that is common between the two and then have a WSI and WSF specific parts.

Security authentication questions

- We put together a HACK to make sure we had an interop wolution without being on the same subnet. This needs to be addressed by Security groups. We need to add an interop report document later on to discuss what happen.

Goals and Future

- Final call on the list by January 15, 2006
- Submission to Area Director by January 22, 2006 (One week after the final call) Send to the Area Director when final call is sent out.
- Submission to GGF public comment before GGF16.
- Public comment is 60 days.
- Need to an experiences document to show the implementations that have been done with BES.
- Interop document needs to be done in

GGF16 Plans

- Updates on the Spec
- Demo of the interop solutions. (Mark, William and possibly Micheal, and possibly NEREGI (Darren to comfirm))
- Thursday Feb 16, 2006 10:30 am

Attendees

Darren (new email darren@pulsipher.org) [GGF16]

Steve [GGF16]

Andrew [GGF16]

Mark [GGF16]

Micheal [GGF16]
