

Call for Papers

International Cross Domain Conference and Workshop (CD-ARES 2013)

to be held in conjunction with the International Conference on Availability, Reliability and Security
(ARES 2013 – <http://www.ares-conference.eu>)

<http://www.cd-ares-conference.eu/>
University of Regensburg, Germany
September 2nd - 6th, 2013

CD-ARES Conference

CD-ARES is a joint effort of

- **IFIP WG 8.4 (E-Business: Multi-disciplinary research and practice)**
- **IFIP WG 8.9 (Enterprise Information Systems)**
- **IFIP TC 5 (Information Technology Applications)**

Today's highly interconnected and interdependent information systems are used in many different ways in order to perform and improve business operations. Thus, a multidisciplinary view on information systems is of great importance to meet future research challenges. This IFIP supported conference therefore is focused on multidisciplinary aspects across the breadth of Business and Enterprise Information Systems.

The aim of this conference is to foster a forum for researchers and practitioners for discussing and presenting recent research ideas and results across the multiple research domains. The conference will be held in conjunction with the ARES conference. Therefore authors of papers with security and dependability focus are also encouraged to contribute to this workshop.

As a multidisciplinary platform this conference will also provide the possibility of discussing additional interactions between elements that extend beyond technology such as organisational issues to include environmental factors (e.g. location based aspects, national and international payment mechanisms)

Special consideration on aspects of Availability, Reliability and Security in Business, Enterprise and Health Information Systems are very much welcome.

CD-ARES Important Dates

Submission Deadline	 April 15th, 2013 extended to April 30th, 2013
Author Notification	 May 20th, 2013
Author Registration	 June 1st, 2013
Proceedings Version	 June 11th, 2013
Conference	 September 2nd - 6th, 2013

Conference Officers

General Chairpersons

- **Alfredo Cuzzocrea**, University of Calabria, Italy
- **Edgar Weippl**, Vienna University of Technology, Austria (IFIP WG 8.4 Chair)

Program Committee Chairperson

- **Lida Xu**, Old Dominion University, US (IFIP WG 9.4 Chair)
- **Christian Kittl**, Evolaris next level, Austria (IFIP WG 8.4)

Submission

To submit a paper please visit our Submission Site at <http://www.cd-ares-conference.eu/>

Topics of interest include, but are not limited to:

- Context-Oriented Information Integration
- Cloud computing, ICT-services, scalability, reliability, flexibility
- Linked data, meta-data and semantic technologies
- Data process-based integration
- Cross-organizational modeling
- Data/Information Management as a Service
- Semantic web services
- Service modelling, composition and optimization
- Application of social network analysis techniques
- Social Media and Information Sharing
- Socially intelligent Computing
- Use of Crowdsourcing and Collective Intelligence
- Citizen science
- Organizational and governance aspects
- Economic, ethical, legal, multilingual, organizational and social aspects
- Security and Privacy
- Privacy and Trust for Internet Services
- Risk management and Business continuity
- Ambient Intelligence
- Visual Analytics and Big Data Visualization
- Information Fusion
- Context and Location-aware Computing
- Mobile data integration
- RFID/NFC integration
- Inter-organizational collaboration
- Best practices and case studies
- Sharing / Integrating in the different application domains, such as:
 - Health, Finance, Retail, Telecom
 - Location Based Applications
 - Mobile Computing
 - Mobile Ad Hoc Collaboration Working Environment
 - Future Internet
